

NextGen Analytics

UrbanEdge Properties – Property management firm focused on housing quality and compliance.

PAIN POINT: There’s a rising number of housing complaints, particularly in one borough. The company seeks to identify root causes and patterns to reduce complaints, enhance building safety, and ensure compliance with NYC housing regulations.

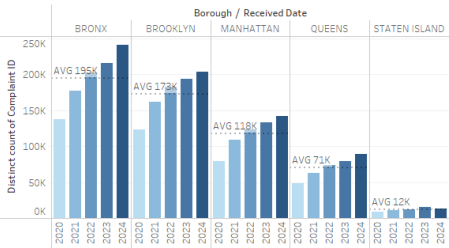

OBJECTIVES: To reduce complaint volume, improve building safety and maintenance practices, ensure timely and effective resolution of tenant issues and Strengthen compliance with NYC housing codes.

Insights to Deliver:

- 1. Borough with the Highest Increase in Complaints
- 2. Top Complaint Categories in the Bronx
- 3. Seasonal Trends in Complaint Volume
- 4. Response Time Efficiency
- 5. Buildings with Repeated Complaints

INSIGHTS & RECOMMENDATIONS

Housing Complaint Counts by Borough

Insight: The Bronx experienced a 67% rise in complaints from 2021 (~150K) to 2024 (~250K), surpassing the citywide average of 195 K.

Supports: Identifying the borough with the largest growth in complaints

Implication: This sharp increase suggests systemic housing challenges in the borough.

Recommendation: Focus inspections and compliance resources in the Bronx to address this rising trend early.

Borough-Wise Breakdown of Complaints by Major Category

	Borough					Grand Total	8%
	BRONX	BROOKLYN	MANHATTAN	QUEENS	STATEN ISLAND		
HEAT/HOT WA..	222,219	187,576	141,444	93,298	9,069	652,606	
UNSANITARY C.	195,044	172,887	109,098	73,564	14,244	554,827	
PAINT/PLASTER	115,011	89,582	63,349	32,612	6,089	306,643	
PLUMBING	103,583	91,029	64,549	35,776	6,855	301,792	
DOOR/WINDOW	79,640	73,834	48,097	25,850	5,195	232,616	
WATER LEAK	66,647	63,435	39,104	21,171	3,881	194,238	
GENERAL	45,122	40,325	32,970	15,664	2,401	136,483	
ELECTRIC	44,777	43,797	24,287	19,195	3,692	135,748	
FLOORING/STA..	48,253	39,120	28,930	12,702	2,948	131,953	
APPLIANCE	39,372	30,662	19,845	12,661	2,500	105,040	
SAFETY	25,325	32,924	16,473	11,861	2,237	88,820	
Grand Total	974,993	865,171	588,136	353,354	59,111	2,840,765	

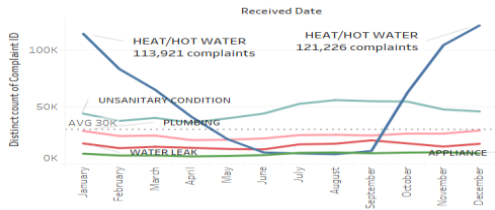

Insight: In the Bronx, HEAT/HOT WATER (222K), UNSANITARY CONDITIONS (185K), and PLUMBING (103K) account for the top complaints, representing over 60% of total issues.

Supports: Helps prioritize which complaint categories to address in the Bronx

Implication: These recurring issues point to aging infrastructure and maintenance gaps.

Recommendation: Launch a targeted initiative addressing heating systems, plumbing, and cleanliness across high-risk buildings.

Monthly Trends in Housing Complaint Categories

Insight: Complaints related to HEAT/HOT WATER spike during winter months (Nov–Feb), showing strong seasonal patterns.

Supports: Planning maintenance based on complaint seasonality

Implication: Tenants face discomfort and safety risks in cold weather due to delayed maintenance.

Recommendation: Develop a fall preventive maintenance program for heating systems, with inspections scheduled before the cold season begins.

Impact of Severity Level on Average Resolution Time for Complaints and Violations

Severity Level	Avg. Complaints Resolution time	Avg. Violation Resolution time
EMERGENCY	13 Days	16 Days
IMMEDIATE EMERGENCY	4 Days	5 Days
NON EMERGENCY	25 Days	28 Days

Insight: While IMMEDIATE EMERGENCIES (e.g., gas leaks) are resolved within 4–5 days, NON-EMERGENCY issues (e.g., paint peeling, minor leaks) take 25–28 days, leading to tenant dissatisfaction.

Supports: identify inefficiencies in the response time

Implication: Prolonged delays in non-emergency repairs can escalate into bigger issues and complaints.

Recommendation: Introduce a response time SLA for non-emergency complaints (e.g., ≤14 days) and track monthly performance metrics.
